DETAILED ACTION

1. This Office action is in response to Application No. 09/879, 235, filed on 06/11/2001.
2. Claims 1-23 are presented for examination.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-23 are rejected under 35 U.S. 103 (a) as being unpatentable over Joao (U.S. Pat. No. 6,347,302) in view of Denny et al. (U.S. Pat. No. 5,724,261).

Art Unit: 3621

As per claims 1-5 and 7-23 Joao substantially discloses a rented articles (articles or self-storage) such as personal, residential and/or commercial office equipment, computers, computer equipment, facsimile machines, copy machines, furniture as well as any other article, piece of equipment (which is readable as Applicant's claimed invention wherein it is stated that a method for renting to a customer a self-storage unit (or rental articles) located at a self-storage facility), comprising:

establishing customer contact with a remote manager when the customer enters a customer service area proximate the self-storage facility so that the customer and manager can communicate using a communication link (see., abstract, col 1, lines 22-55, please note that the lesser or renter is the manager in charge, and the connection to the Internet or WWW is the communication link);

recommending a self-storage unit to the customer (see., col 8, lines 33-40, please note that the data information of Joao can also be recommended to insurer and customer).

Joao fails to explicitly disclose a facility inspection of the self-storage or rental articles. However, Denny discloses a data processing that includes a property inspection device (property or rental article) see., abstract, col 2, lines 9-26 and lines 47-67.

Therefore, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the rented articles of Joao by including a property inspection as taught by Denny because such modification would provide protection against liability which may arise as a result of wear and tear.

Art Unit: 3621

As per claim 6, Joao discloses the claimed method of establishing contact further comprises the step of automatically telephoning the remote manager (or renter or lesser) when the customer picks up a telephone receiver (see., col 16, lines 13-26, and lines 66-67, col 17, lines 1-13).
